

## Employee Communication: Gender Pay Gap Reporting

Nonsuch & Wallington Education Trust (NWET) is an employer required by law to carry out Gender Pay Reporting under the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017. An employer must comply with the regulations for any year where they have a 'headcount' of 250 or more employees on the 'snapshot date'. On 31<sup>st</sup> March 2017, NWET had 299 employees for the purposes of this calculation.

Gender Pay Reporting involves carrying out six calculations that show the difference between the average earnings of men and women in our organisation; it does not involve publishing data on individual employees.

We are required to publish the results on our own website(s) and on a government website - <https://gender-pay-gap.service.gov.uk/Viewing/search-results>. We must do this within one calendar year of the 'snapshot date'.

We can use these results to assess:

- the levels of gender equality in our workplace
- the balance of male and female employees at different levels
- how effectively talent is being maximised and rewarded.

The challenge in our organisation and across Great Britain is to eliminate any gender pay gap.

NWET is able to report a 2% difference in the mean hourly rate of pay and a 7% difference in the median hourly rate of pay, together with a well balanced workforce at every level. The differences identified are acceptable, reflect the large number of female staff opting for flexible and part time work as invigilators, cover supervisors and the like, and give no cause for concern. NWET continues to have structured Teaching Pay Scales and Support Staff Pay Scales that are not gender specific.

You can find out more about Gender Pay Reporting by visiting [www.acas.org.uk/genderpay](http://www.acas.org.uk/genderpay).

Gender Pay Reporting requires our organisation to make calculations based on employee gender, which we establish using our existing HR and payroll records. All employees can confirm and update their records if they choose to by contacting the NWET HR Manager.

Our Gender Pay Reporting analysis, as at March 2017, can be found on the following page.

## Gender Pay Gap Reporting Analysis 2017

The data below is calculated using a snapshot of payroll data at March 2017. Certain zero hours employees were not included in the data collection for this month, due to the irregular nature of their pay.

	<b>Male</b>	<b>Female</b>
Number of employees	61 (20%)	238 (80%)
1. Difference in mean hourly rate of pay	2% (meaning that the mean hourly pay for a female is 2% less than the mean hourly pay for a male)	
2. Difference in median hourly rate of pay	7% (meaning that the median hourly pay for a female is 7% less than the median hourly pay for a male)	
3. Difference in mean bonus pay	0%	
4. Difference in median bonus pay	0%	
5. Percentage of employees who received bonus pay	0%	0%
6. Employees by pay quartile		
Upper Quartile (i.e. highest paid)	21%	79%
Upper Middle Quartile	23%	77%
Lower Middle Quartile	17%	83%
Lower Quartile (i.e. lowest paid)	20%	80%

Published details can be found on the GOV.UK Gender Pay Reporting website
